

Comprehensive Care for Individuals and Families

We deliver world-class behavioral and mental health care to clients of all ages across Pennsylvania. Immediate access to counseling and therapy is available.

Care that Changes Lives

Clarvida of Pennsylvania offers a wide range of compassionate and evidence-based services to support individuals and families across a lifetime. Our team of licensed clinicians and therapists, behavior specialists, and direct care partners work throughout communities, homes, schools, and clinical settings to deliver personalized care that meets your goals. Below are our services.

Counseling & Therapy

Behavioral and mental health care for both children and adults, provided by licensed clinicians and experienced care teams.

Autism Services

Comprehensive, evidence-based behavior support for individuals with autism, delivered by trained professionals in home and school settings.

Psychiatric Services

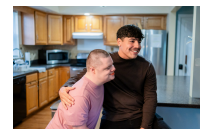

Integrated psychiatric care for children and adults, delivered by qualified mental health professionals and medical providers.

Child & Family Services

Family-centered programs that strengthen relationships, promote child safety, and support healthy family functioning.

Intellectual & Developmental Disabilities

Small supported-living homes and community-based day programs providing daily care, nursing support, and community engagement for individuals with intellectual & developmental disabilities.
